Product details

Referencing the solid marble furniture seen throughout 180 House on the Strand in London, this set of four coasters has been hand-hewn in India from a weighty forest-green marble that has unique variations in texture and colour. Each one has protective feet, so it won't scratch natural surfaces such as glass or wood.

- Solid forest-green marble coasters
- Handmade in India
- Inspired by 180 House

Also available in pink.
