- Always switch off the electricity supply before cleaning.

TOOLS REQUIRED (Not Supplied)

- Cross Head Screwdriver
- Flat Head Screwdriver
- Pencil
- Drill
- Insulation Tape

1

Remove the fixing screws and mounting bracket (B) from wall plate and retain for later use.

2

Using the bracket (B) as a template, mark and drill fixing holes on the wall.
Due to the variety of different ceiling types Soho Home cannot provide you with the exact fittings needed to fix this product to the wall. Different materials require different types of fittings.

3

Attach the bracket (B) onto the wall using suitable fittings.
You will need to choose fittings that are specifically suited to the ceiling type and material you have. If you are unsure about what type of fittings to use please consult your local hardware store and/or qualified tradesperson to get the appropriate fittings.

4

Connect the supply wires to the terminal block (C), opposite the corresponding wires from the fitting. Ensure that connections are tight and no loose strands of wire are left out of the connector block.

5

Use the fixing screws provided to secure the fitting to the pre fixed bracket (B) ensuring that the fixing points can bear the total weight of the fitting.

6

1. Unscrew metal collar (D) from the lampholder.
2. Place the shade (E) onto the lampholder.
3. Secure the shade (E) in place by turning the metal collar (D) in a clockwise direction until tight.

7

Insert the specified light bulb into the Lampholder.
DO NOT EXCEED THE SPECIFIED WATTAGE.

8

The angel of glass shade is adjustable.
Loosen the handle on the joint in anti-clockwise direction. Adjust shade to desired angel, and then tighten back the handle. ensure shade is secured in place.
