Product details

A sleek option for your living space, the Oliver mid-century wall light is designed with a substantial antique brass wall plate, also known as raw or uncoated brass. Ours is brushed to give the light an antique aesthetic, and is left without a protective coating. It therefore ages over time to develop a beautiful patina that adds character to new and old homes alike. Recalling the retro, vintage lights seen at White City House, this wall light has a fully extendable arm with a powder-coated black metal shade that can be angled to create directional light - ideal for reading on the sofa or in bed.
