

Tala 6w Globe Led

£11 Regular

£9 SOHO HOME+

Product details

You'll find Tala bulbs in the lamps, wall lights and chandeliers in many of our Houses. Tala is on a mission to become the definitive zero-carbon lighting brand. Made from high quality fully recyclable materials Tala LED bulbs use 90% less energy than incandescent equivalents and have a lifespan of between 5-10 years in the home, this efficiency and longevity reduces energy bills and lowers the users' carbon footprint. Together with reforestation partners, Tala have planted over 40,000 trees worldwide.

The Globe light bulb by Tala features eight exposed sapphire substrate filaments, which come together in this traditional Edison-style shape. The effect is a warm, ambient light in a E27 base that makes the Globe ideal to fit into new or existing fixtures. Suitable for display or behind a shade, the Globe is complete with energy efficient LED technology, lasting an average of 5-10 years based on daily usage.

- 6W Edison Screw E27 globe LED bulb by British lighting brand Tala
- Design inspired by classic filament bulbs for a vintage look
- Glass chosen for maximum transparency and minimal scratching
- Antique brass finish fitting
- LED bulb lasts 15 times longer than traditional halogen bulb
- We use Tala's Globe bulb in our Halsted floor lamp
