

Havana Cane Side Table

£150 Regular

£120 SOHO HOME+

Product details

Our Havana side tables are designed to complement the cane chairs in the beach bar at Soho Beach House, Miami. The frame is hand-carved from blue-gum trees while the top and sides are made with a cane and bamboo weave that features special knots and no artificial fixings. The design and skills required to make the tables are passed down through the generations, with each one taking 10-14 days to produce. Due to the handmade nature of the process and the natural materials used, every table is unique and will acquire its own distinctive patina over time.

- Round side table made from woven cane and bamboo
- Square shelf underneath table top
- Hand carved from blue gum trees
- Inspired by the cane furniture at Soho Beach House, Miami
