Product details

Referencing the graphic geometrics at White City House, the Raya rug features an irregular, bold linear pattern designed by our in-house team. The hand-drawn pattern has been transferred onto the rug using a hand-tufting technique, with a contrasting wool and viscose pile to create an interesting texture and sheen. Place this round style underneath an entry table such as the Tadwick, or under a round dining table such as the Lowden, as we would in our Houses.
