Product details

Sydney-born artist George Byrne lives and works in Los Angeles. As artist in residence at Soho Beach House, Miami he made a series of photographs of the area surrounding the House. This piece is one of those photographs; the others were exhibited at the House during Art Basel. Kate Bryan, head of collections at Soho House, says: 'George Byrne masterfully blends together colour, shadow, shape and texture, finding the perfect balance between them. Within his depiction of everyday surfaces and landscapes, he achieves a painterly abstraction.'
