Product details

Sue Webster's work can be found throughout our Houses worldwide, from London to Amsterdam, Chicago and Miami. A Brief History of Shoreditch is a 'spidergraph' that links together the people and places that contributed over the years to make Shoreditch what it is today. Kate Bryan, head of collections at Soho House, says: 'Sue Webster is an artist whose work is deeply influenced by her role as an astute observer within society. As someone who has experienced punk and the YBA scene through to current trends and cultures, her work is infused with a sense of dynamism and zest for life.'
