### Product details

A sleek option for your living space, the Oliver mid-century chandelier is designed with an antique solid brass centralised stem, also known as raw or uncoated brass. Ours is brushed to give the lamp its antique aesthetic, and is left without a protective coating. It therefore ages over time to develop a beautiful patina that adds character to new and old homes alike. Recalling the retro, vintage-style lights seen at White City House, the chandelier is complete with powder-coated black metal shades that can be angled to create directional light pools.
