- Also available as a set

Dimensions

H6 x W15 x D15cm / H2.4 x W5.9 x D5.9"

Weight

3.2kg / 7.1lbs

Details

Materials: Stainless Steel

Care Instructions: Wipe the salt / pepper mill clean using a soft damp cloth and occasionally wipe dry with a soft cloth. Use any good quality silver polishing cloth for tarnish removal, if required. Do not use abrasives or cleaners as they may damage the finish. This product is not dishwasher safe.

How to use: Unscrew the top knob, pull open the cover and fill the grinder bottle up to 2/3 capacity or less with salt or pepper, as required. Slide the cap back through the square rod and screw the top knob applying light pressure. In this position the mill will produce a comparatively coarser grind quality. If a finer grind quality is required, turn the mill upside down to dislodge any pepper corns or salt out of the mechanism and tighten the top knob. The more the knob is hand tightened, the finer the grind quality. Always rotate the cover in clockwise direction for grinding. Always use any dried, whole, regular sized pepper corns and dry sea salt crystals (not flakes) in the mill.
